1. The first step in the process of the investigation is the identification of the problem. This is done by the investigator who is assigned to the case. The investigator will then gather information about the problem and the people involved. This information will be used to develop a plan of action. The plan of action will be based on the information gathered and the investigator's own experience. The plan of action will be used to guide the investigation and to ensure that the problem is solved. The investigator will then implement the plan of action and will monitor the progress of the investigation. The investigator will then report the results of the investigation to the appropriate authorities. The results of the investigation will be used to develop a plan of action to prevent the problem from occurring again. The investigator will then implement the plan of action and will monitor the progress of the investigation. The investigator will then report the results of the investigation to the appropriate authorities. The results of the investigation will be used to develop a plan of action to prevent the problem from occurring again.
