1. The first step in the process of identifying a potential security risk is to conduct a thorough review of the organization's policies and procedures. This includes reviewing the organization's security policy, which should be updated regularly to reflect changes in the threat landscape. Additionally, the organization should review its incident response plan, which should be tested regularly to ensure its effectiveness.

and the other is the H_2O vapor pressure, $p_{\text{H}_2\text{O}}$, which is a function of temperature alone.
